SUMMARY

Web developer with 5+ years of experience in developing websites using latest technologies. Experienced with HTML5, CSS3, JavaScript, PHP and SQL. Strong collaboration skills, goal-oriented and driven.

EXPERIENCE

Web Developer – Sightline Media Group – Vienna, Virginia

October, 2015 – June, 2020

Sightline Media Group is the leading news organization covering military, defense, public sector, federal technology, C4ISR and cyber defense.

- Created reusable web components with React using BEM.
- Used Bootstrap framework and Media Query to create responsive websites that fit different devices from desktop to tablet and mobile devices.
- Created new and troubleshooted multiple email templates for marketing and newsletter emails.
- Created landing pages for webcasts, webinars and e-books using bootstrap framework.
- Resolved Cross Browser Compatible Issues for different version of IE, Safari, Chrome, Firefox and Opera.
- Managed multiple projects while being accessible to the team and organization.

PROJECTS

Netflix

- A Netflix clone created using React and utilized the API from TMDB.com. Users can view movies and tv shows available on Netflix which are sorted by categories.

To-do App

- Created a to-do web app implementing CRUD operations using MongoDB, ExpressJs, Axios, and NodeJS. Users can add, read, update and delete items in the to-do list.

News Grid

- Created a news site utilizing HTML5 semantics, CSS3, CSS grid and CSS flex box.
