SUMMARY

Motivated web developer with over 5 years of experience and passion for responsive website design and a firm believer in the mobile-first approach. Experience with modern frameworks and JavaScript libraries.

PROFESSIONAL EXPERIENCE

Front End Web Developer – October, 2015 – June, 2020
Sightline Media Group – Vienna, Virginia
Sightline Media Group is the leading news organization covering military, defense, public sector, federal technology, C4ISR and cyber defense.

- Implemented responsive HTML layouts based on wireframes, and built custom styling based on a style guide and design mocks.
- Coordinated and participated in the programming, implementation, testing, and support of web-based projects.
- Worked with colleagues across development, marketing, business operations, and editorial, to strategize and then develop the best product solution based on business needs.
- Work with various teams and stakeholders to create and maintain digital experiences for multiple brands.
- Collaborated with product team members to implement new feature developments.
- Coordinated coding, testing, implementation and documentation of solutions.
- Implemented websites, and landing pages from concept through deployment.
- Collaborated with marketing and project management teams to deliver projects on-time and with the highest standard.
- Worked with a variety of front-end development languages and frameworks to write HTML, CSS/SASS, and JavaScript.
- Managed multiple projects while being accessible to the team and organization.

PROJECTS

React Movie Database – August, 2020
- Developed an IMDB style real world web application using React while learning React fundamentals, JSX syntax and expressions, and lifecycle methods.

To-Do Web Application – March, 2020
- Developed a To-do web application utilizing the MERN stack.
